## What is this product?

**Type:** Shares of a Sub-Fund of MULTI UNITS LUXEMBOURG, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** This Sub-Fund is passively managed.

The investment objective of the Sub-Fund is to reflect the performance of the euro short-term rate ("€STR") compounded rate (the "Benchmark Index") and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Benchmark Index. The anticipated level of the tracking error, under normal market conditions is indicated in the prospectus of the Sub-Fund.

The euro short-term rate (€STR) reflects the wholesale euro unsecured overnight borrowing costs of banks located in the Euro area. The €STR is published on each Business Day based on transactions conducted and settled on the previous Business Day (the reporting date "T") with a maturity date of T+1 which are deemed to have been executed at arm's length and thus reflect market rates in an unbiased way. The daily compounded €STR is calculated and published by the European Central Bank (ECB).

The ECB reviews the €STR methodology and publishes a report every year.

Updated composition of the Sub-Fund holdings is available on [www.amundiETF.com](http://www.amundiETF.com).

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Sub-Fund, and might also be mentioned on the websites of the stock exchanges where the Sub-Fund is listed.

The Sub-Fund will apply an Indirect Replication methodology to get exposition to the Benchmark Index.

The Sub-Fund will invest into an investment portfolio, consisting of transferable securities or units or shares of UCITS, financial derivative instruments (in particular total return swap, currency forwards and currency swaps transactions strictly designed to hedge currency risks, interest rate swaps transactions aiming at reducing interest rate risks). The Sub-Fund may receive collateral from credit institutions to reduce part or all of the counterparty risks, or derivatives traded with such credit institutions.

More information about the investment portfolio or the investment strategy of the Sub-Fund is detailed in the Prospectus of the Sub-Fund.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to preserve some or all of the capital invested over the recommended holding period with the ability to bear losses up to the amount invested.

**Redemption and Dealing:** The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the MULTI UNITS LUXEMBOURG prospectus.

**Distribution policy:** As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

**More Information:** You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.  
The Net Asset Value of the Sub-Fund is available on [www.amundi.lu](http://www.amundi.lu)

**Depository:** Societe Generale Luxembourg.

## What are the risks and what could I get in return?

### RISK INDICATOR

The risk indicator assumes you keep the product for 0.25 year.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 1 out of 7, which is the lowest risk class. This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Additional risks:** Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the MULTI UNITS LUXEMBOURG prospectus.

### PERFORMANCE SCENARIOS

### What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of MULTI UNITS LUXEMBOURG. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.
